being devoted to bankruptcy and bankruptcy proceedings. The arrangement of the book deserves notice, taking up the different courts, as it does, in their logical order and inversely to the more usual method of dealing with them in the order of their respective importance. While not entirely original, this arrangement has never before, we believe, been carried out with the same completeness; its advantages are obvious, and do not seem to be offset by any material demerits. Mr. Hughes' treatise will show itself admirably adapted to purposes of study or of reference. C. C. R.

Outlines of the Law of Bailments and Carriers and Cases on Bailments and Carriers. By Edwin C. Godard, Professor of Law in the University of Michigan. Callaghan & Co., Chicago, 1904. Buckram, pages 250 and 742.

These books are designed to be used in connection with each other by law students. The treatment in the "Outlines" is necessarily not particularly exhaustive, in view of the importance of the subject. But it is capable of being of great assistance, we imagine, to those who prefer to study Bailments and Carriers by the case system, having the advantages of brevity and conciseness, while the reasoning in the "Cases" acts as the necessary supplement. The subject being mostly of modern development, its leading cases are generally of recent date, which make them so much the more easy to study. An interesting feature of the works is the discussion of telephones and telegraphs considered as common carriers. G. S. A.
